The screenshot displays the 'Policy Compliance' interface, specifically the 'Reports' section. A sidebar on the left shows a summary of 23 total control instances, categorized by 'Anti-Virus/Malwa...', 'CRITICALITY' (Serious: 2, Critical: 19, Urgent: 2), and 'POSTURE' (Pass: 11, Fail: 12). The main area, titled 'Control View', shows a search filter for 'pc.control.category: "Anti-Virus/Malware"'. Below this, a table lists individual controls with columns for Status, CID, Control description, Technology/Instance, Asset Name, and Last Evaluation. The table shows a mix of 'FAIL' and 'PASS' statuses for various settings like Internet Explorer protections, System ASLR, and antivirus configurations across different operating systems (Windows Server 2012 R2, Mac OS X 10.x).
