

QUALYS SECURITY CONFERENCE 2020

Security at a Crossroads

The Role Qualys Plays in it and Where are We Going?

By Philippe Courtot,
Chairman and CEO, Qualys Inc.

Four Seasons – San Francisco February 25, 2020

The New Era of Cloud-Based Computing

What is Cloud-Based Computing?

What are the Key Drivers Behind It?

Internet

Cloud Platforms

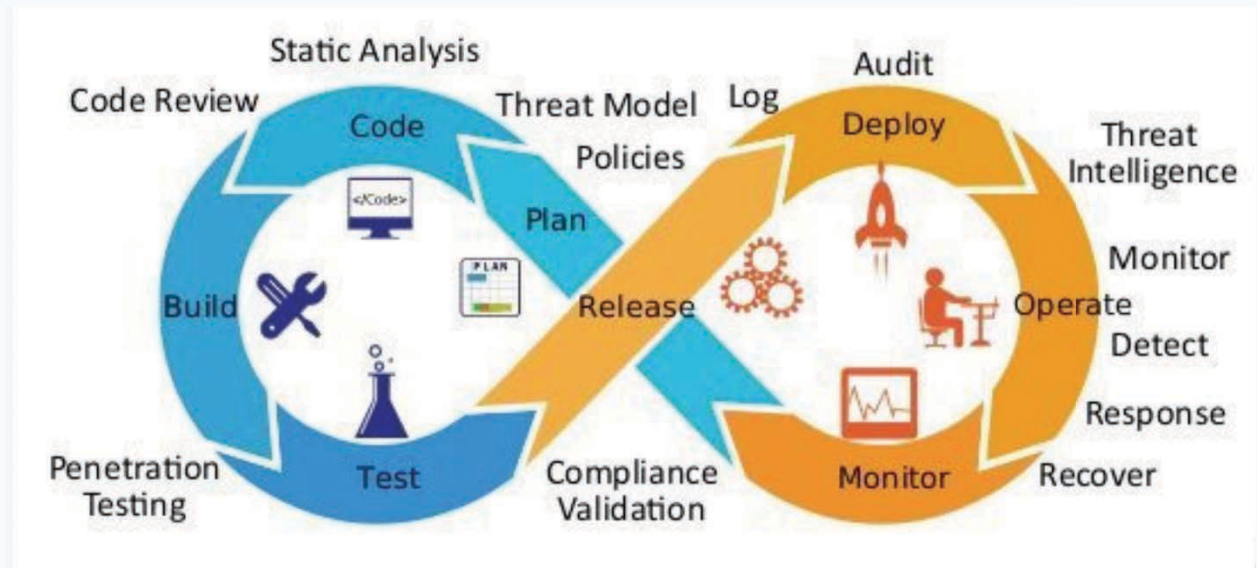

Open Source Tools

DevOps & DevSecOps

What About DevOps & DevSecOps?

Embedding Security into the DevOps Cycle

What Does This Mean For Security?

Security now **Can**
and **Must** be built-in

Bringing in its wake
drastic and rapid
changes to our
industry as a whole

The Role Qualys Plays

Providing unprecedented real-time **visibility** across the global hybrid IT environment

Natively **embedding** security into cloud platforms

Integrating our solutions with DevOps tools

Expanding our Platform capabilities from **Detection** to **Response**

Introducing VMDR

Not a bundle of solutions;
Many years in the making

Foundation for a **true** Risk-Based
Vulnerability Management approach

Foundation for our forthcoming
Next-Gen Incident Response and
EDR offerings coming later this year

Invitation – C-Level Private Diner

Keynote:

"How DevOps, the Engine Behind Digital Transformation, is Changing Security."

Sanjeev Sharma, Principal Analyst,
Accelerated Strategies Group
Author: "DevOps Adoption Playbook"

6:00 PM – Cocktails and networking

7:00 PM – Dinner, followed by book signing

Invitation – Qualys Reception

Join us Wednesday for our Private Reception

This year's Private Reception will be held the day after the conference, Wednesday evening at the Four Seasons, between 6:00 - 9:30 PM.

Please join us for a private reception to honor our customers and celebrate the launch of our game-changing VMDR – Vulnerability Management, Detection and Response solution. You'll enjoy food and cocktails while you socialize and network with fellow customers and Qualys partners and employees. [Register here](#) if you're only attending the Private Reception.
