

Everything visible. Everything secure.

Unparalleled visibility, end-to-end security and compliance for all your global IT assets

Qualys Cloud Platform

2-second visibility across all your assets

Continuous assessment of your global security & compliance posture

Identify compromised assets

Consolidate all your security and compliance stacks

Secure your digital transformation

Drastically reduce your spend

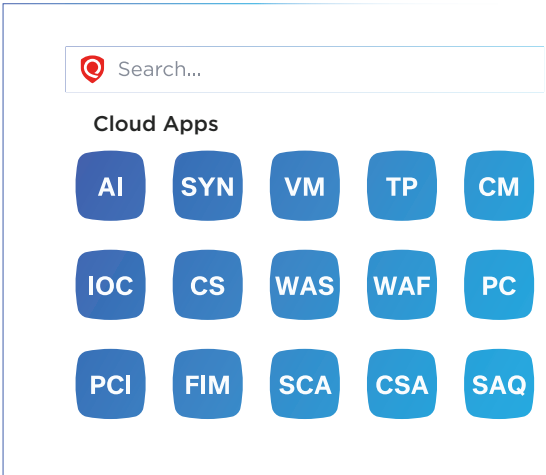

Qualys Cloud Platform.

The revolutionary architecture that powers Qualys' IT security and compliance cloud apps.

Sensors that provide you continuous visibility

On-premises, at endpoints or in the cloud, the Qualys Cloud Platform sensors are always on, giving you continuous 2-second visibility of all your IT assets. Remotely deployable, centrally managed and self-updating, the sensors come as physical or virtual appliances, or lightweight agents. Our sensors also come natively integrated with Cloud Infrastructure providers such as AWS, Azure and GCP.

All data analyzed in real time

Qualys Cloud Platform provides an end-to-end solution, allowing you to avoid the cost and complexities that come with managing multiple security vendors. The Qualys Cloud Platform automatically gathers and analyzes security and compliance data in a scalable, state-of-the-art backend, and provisioning additional cloud apps is as easy as checking a box.

Unique advantages of the Qualys Cloud Platform

No hardware to buy or manage

Nothing to install or manage, and all services are accessible in the cloud via web interface. Qualys operates and maintains everything.

Lower operating costs

With everything in the cloud, there are no capital expenditures, no extra human resources needed, and no infrastructure or software to buy and maintain.

Easy global scanning

Easily perform scans on geographically distributed and segmented networks at the perimeter, behind the firewall, on dynamic cloud environments and endpoints.

Seamless scaling

Qualys Cloud Platform is a scalable, end-to-end solution for all aspects of IT security. Once deployed, seamlessly add new coverage, users and services as you need them.

Six Sigma Scanning Accuracy

Respond to threats immediately

With Qualys' Cloud Agent technology, there's no need to schedule scan windows or manage credentials for scanning. And Qualys Continuous Monitoring service lets you proactively address potential threats whenever new vulnerabilities appear, with real-time alerts to notify you immediately.

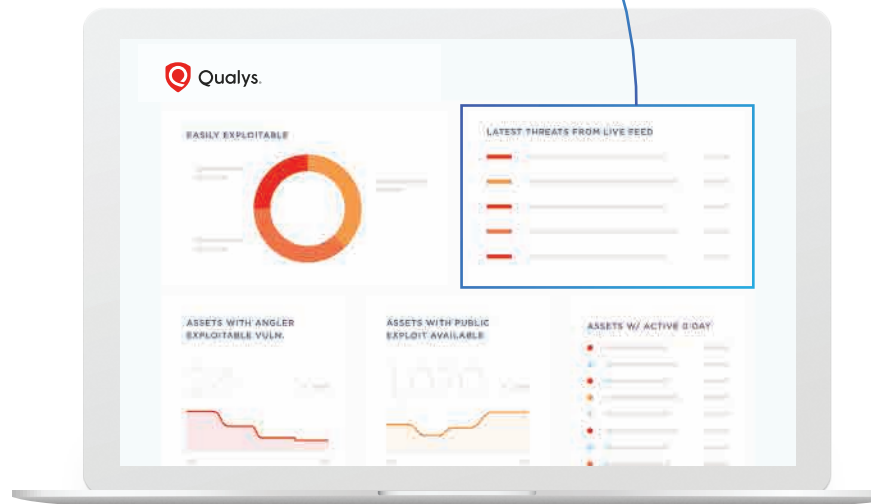

See the results in one place, anytime, anywhere

Qualys Cloud Platform is accessible directly in the browser, no plugins necessary. With an intuitive, single-pane-of-glass user interface for all its apps, it lets you customize dashboards, drill down into details, and generate reports for teammates and auditors.

ALERT:

New open port 890 found on host corp.acme.com

Up-to-date resources

Qualys has the largest knowledge base of vulnerability signatures in the industry, and performs over 3 billion IP scans per year. All security updates are made in real time.

Data stored securely

Vulnerability data is securely stored and processed in an n-tiered architecture of load-balanced servers. Our encrypted databases are physically and logically secure.

Available as a Public or Private Cloud, on-premises

Full server rack

For governments, enterprises, and MSSPs

Virtual rack

For governments, enterprises, and MSSPs

Standalone appliance

For small businesses

Cloud Platform Apps.

Qualys apps are fully integrated and natively share the data they collect for real-time analysis and correlation. Provisioning another app is as easy as checking a box.

ASSET MANAGEMENT

AI Asset Inventory

Maintain full, instant visibility of all global IT assets wherever they reside – on premises, in clouds or at mobile endpoints

SYN CMDB Sync

Synchronize asset information from Qualys into ServiceNow CMDB

WEB APPLICATION SECURITY

WAS Web Application Scanning

Secure web applications with end-to-end protection

WAF Web Application Firewall

Block attacks and virtually patch web application vulnerabilities

IT SECURITY

VM Vulnerability Management

Continuously detect and protect against attacks, anytime, anywhere

TP Threat Protection

Pinpoint your most critical threats and prioritize patching

CM Continuous Monitoring

Alerts you in real time about network irregularities

IOC Indication of Compromise

Continuously monitor endpoints to detect suspicious activity

CS Container Security

Discover, track, and continuously protect containers

COMPLIANCE MONITORING

PC Policy Compliance

Assess security configurations of IT systems throughout your network

SCA Security Configuration Assessment

Automate configuration assessment of global IT assets

PCI PCI Compliance

Automate, simplify and attain PCI compliance quickly

FIM File Integrity Monitoring

Log and track file changes across global IT systems

SAQ Security Assessment Questionnaire

Minimize the risk of doing business with vendors and other third parties.

CLOUD SECURITY

CI Cloud Inventory

Inventory public cloud workloads and infrastructure

CSA Cloud Security Assessment

Get full visibility and control across all public cloud instances

CERTIFICATE SECURITY

CRI Certificate Inventory

Inventory TLS/SSL digital certificates on a global scale

CRA Certificate Assessment

Assess your digital certificates and TLS configurations

Customizable, user-defined dynamic dashboard for real-time tracking progress of WannaCry remediation alerts

Solutions.

Consolidate your security and compliance stack and keep your teams in sync.

Infrastructure Security

Everything you need for on-premises data center security: asset inventory, passive and active scanning, vulnerability management and more.

Cloud Infrastructure Security

You must secure the workloads being shifted to public clouds. With native AWS, Azure and Google Cloud integrations, Qualys gives you instant visibility into these instances and full security and compliance control.

Endpoint Security

The variety and quantity of endpoints on your network continue to rise, and so do security and compliance risks. With Qualys, you'll continuously discover, track and protect PCs, laptops, IoT devices, smartphones, peripherals and other networked endpoints.

Web App Security

It's never been easier for employees to bypass IT and install unsafe web apps. Qualys continually detects all your web apps – approved and unapproved – and provides continuous cloud-based protection.

DevSecOps

Qualys puts security into your DevOps environment, automating the detection of coding and configuration errors in your iterative, collaborative software development lifecycle, prioritizing vulnerability remediation, shielding web apps and flagging hacker intrusions.

Compliance

You enforce compliance with complex internal policies, industry mandates and external regulations, and assess vendor risk. Qualys' cloud-based solutions give you the clarity, control and flexibility you need to keep your organization compliant.

Building security and compliance for the digital transformation with the Qualys Cloud Platform

The digital transformation is bringing new opportunities to your company—but also exposing it to new security risks. New vulnerabilities, regulations and tools are surfacing all the time. The Qualys Cloud Platform can guide your company through all of it.

Streamline your IT security operations across clouds

Save time and money with Qualys' all-in-one, cloud-based solution. No hardware to install or software to maintain. Avoid the gaps that come with trying to glue together different siloed solutions.

See it all in one place, anytime, anywhere, in real-time

See your security and compliance posture in one browser window, without plugins or a VPN. No need to wait for reports to run—all the data is updated in real-time.

Demonstrate and maintain compliance

Respond to auditors and regulations in a timely and accurate manner. We help you show that the required controls are in place and your environment is continually compliant.

Achieve IT security and compliance in a single platform, and drastically reduce your spend.

“The Qualys Cloud Platform simplifies the complexity associated with managing multiple security solutions, while at the same time increasing the automation, effectiveness and proactive nature of security.”

Robert Ayoub
Research Director, Security Products at IDC

About Qualys.

The leading provider of IT security and compliance solutions at your fingertips.

Born in the cloud, with a fresh approach to security

The Qualys Cloud Platform and its integrated apps help businesses simplify security operations and lower the cost of compliance by delivering critical security intelligence on demand and automating the full spectrum of auditing, compliance and protection for IT systems and web applications.

Founded in 1999, Qualys has established strategic partnerships with leading managed service providers and consulting organizations including Accenture, BT, Cognizant Technology Solutions, Deutsche Telekom, Fujitsu, HCL, DXC Technology (formerly HP Enterprise), IBM, Infosys, NTT, Optiv, SecureWorks, Tata Communications, Verizon and Wipro. The company is also a founding member of the Cloud Security Alliance (CSA).
