

Qualys Patch Management

Supported Product Versions

November 13, 2019

This document provides a list of products and versions that Qualys Patch Management supports patching.

Note: Products marked as “Scan Only” require a login or account information and cannot be downloaded and installed directly by Qualys Cloud Agents. They are included for visibility purposes to show that the product is missing patches. You will need to deploy them separately, but Patch Management can confirm installation in Patch Scans. Future versions of Patch Management will include a mechanism for administrators to obtain these patches themselves and upload them for deployment.

List of products supported by Patch Management
