QUALYS ANNOUNCES SECOND QUARTER 2013 FINANCIAL RESULTS

***Revenue Growth of 18% Year-Over-Year
GAAP EPS of \$0.02, Non-GAAP EPS of \$0.06***

REDWOOD CITY, CA – August 5, 2013 – Qualys, Inc. (NASDAQ: QLYS), a pioneer and leading provider of cloud security and compliance solutions, today announced financial results for the second quarter ended June 30, 2013. For the quarter, the Company reported revenues of \$26.3 million, GAAP net income of \$0.9 million, non-GAAP net income of \$2.1 million, adjusted EBITDA of \$4.5 million, GAAP earnings per diluted share of \$0.02, and non-GAAP earnings per diluted share of \$0.06.

“We are pleased to report another solid quarter as we continue to execute against our strategic plan and drive momentum throughout our business,” stated Philippe Courtot, Chairman and Chief Executive Officer of Qualys. “Our years of investment in the QualysGuard Cloud Platform and product innovation are clearly paying off, resulting in increased adoption of our solutions by organizations worldwide. Our core Vulnerability Management customers are increasingly adopting our new solutions, including Web Application Scanning and Policy Compliance. Our continued investment in innovation also has produced enhanced platform capabilities, including the ability to now package the entire Qualys platform and deliver it to customers fully virtualized on a single VCE Vblock System. This significant milestone opens up another avenue of growth for the Company, expanding our reach to organizations such as managed security service providers and government entities that require an on-premise solution for our cloud offerings. With a growing base of more than 6,000 customers worldwide, we remain confident in our outlook for the second half of 2013 and will continue to focus on strategic investments that maintain our technical leadership while leveraging the strength of our SaaS business model to grow revenues and increase value to our customers and shareholders.”

Second Quarter 2013 Financial Highlights

Revenues: Revenues for the second quarter of 2013 increased by 18% to \$26.3 million compared to \$22.2 million in the same quarter last year. Revenue growth was driven by a combination of increased sales of subscriptions for additional solutions to existing customers, as well as sales of subscriptions to new customers.

Bookings: Four-Quarter Bookings (a non-GAAP financial measure) were \$109.0 million for the four-quarter period ended June 30, 2013, an increase of \$15.0 million, or 16%, compared to \$94.0 million for the four-quarter period ended June 30, 2012. The increase in Four-Quarter Bookings was primarily due to sales of subscriptions for additional solutions to the existing customer base, as well as sales of subscriptions to new customers.

Gross Profit: GAAP gross profit for the second quarter of 2013 increased by 16% to \$20.4 million compared to \$17.6 million in the same quarter last year. GAAP gross margin was 77% for the second quarter of 2013 compared to 79% in the same quarter last year. Non-GAAP gross profit for the second quarter of 2013 increased by 16% to \$20.5 million compared to \$17.6 million in the same quarter last year. Non-GAAP gross margin was 78% for the second quarter of 2013 compared to 79% in the same quarter last year. The decrease in gross margin was related to increased depreciation resulting from higher levels of capital expenditures and related operations costs to support the growth of the Company's business, including the deployment of new solutions and the expansion of its data center infrastructure.

Operating Income: GAAP operating income for the second quarter of 2013 increased to \$0.9 million compared to an operating loss of \$0.2 million in the same quarter last year. GAAP operating margin increased to 3% for the second quarter of 2013 compared to (1%) in the same quarter last year. Non-GAAP operating income for the second quarter of 2013 increased to \$2.1 million compared to \$0.7 million in the same quarter last year. Non-GAAP operating margin increased to 8% for the second quarter of 2013 compared to 3% in the same quarter last year.

Net Income: GAAP net income for the second quarter of 2013 was \$0.9 million, or \$0.02 per diluted share, compared to a net loss of \$0.3 million, or a \$0.05 net loss per diluted share, in the same quarter last year. Non-GAAP net income for the second quarter of 2013 was \$2.1 million, or \$0.06 per diluted share, compared to a non-GAAP net income of \$0.6 million, or a \$0.02 net income per diluted share, in the same quarter last year.

Adjusted EBITDA: Adjusted EBITDA (a non-GAAP financial measure) for the second quarter of 2013 increased by 82% to \$4.5 million compared to \$2.5 million in the same quarter last year. As a percentage of revenues, adjusted EBITDA increased to 17% for the second quarter of 2013 compared to 11% in the same quarter last year.

Legal Notice Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements generally relate to future events or our future financial or operating performance. Forward-looking statements in this press release include, but are not limited to, statements related to: continued revenue growth and overall momentum in our business; our expectations regarding strategic investments in our business; our guidance for revenues, GAAP net income per diluted share and non-GAAP net income per diluted share for the third quarter and full year of 2013; and our expectations for the number of weighted average diluted shares outstanding for the third quarter and full year of 2013. Our expectations and beliefs regarding these matters may not materialize, and actual results in future periods are subject to risks and uncertainties that could cause actual results to differ materially from those projected. These risks include our ability to continue to develop platform capabilities and solutions; customer acceptance and purchase of our existing solutions and new solutions; our ability to retain existing customers and generate new customers; the market for cloud solutions for IT security and compliance not continuing to develop; competition from other products and services; and general market, political, economic and business conditions. The forward-looking statements contained in this press release are also subject to other risks and uncertainties, including those more fully described in our filings with the Securities and Exchange Commission, including our Quarterly Report on Form 10-Q for the three months ended March 31, 2013, filed with the Securities and Exchange Commission on May 10, 2013. The forward-looking statements in this press release are based on information available to Qualys as of the date hereof, and Qualys disclaims any obligation to update any forward-looking statements, except as required by law.

Non-GAAP Financial Measures

In addition to reporting financial results in accordance with generally accepted accounting principles, or GAAP, Qualys monitors non-GAAP measures of Four-Quarter Bookings, non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating income, non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net income (loss) per diluted share and adjusted EBITDA.

Qualys monitors Four-Quarter Bookings to understand sales trends for its business. Qualys believes this metric provides an additional tool for investors to use in assessing its business performance in a way that more fully reflects current business trends than reported revenues and reduces the variations in any particular quarter caused by customer subscription renewals. Qualys believes Four-Quarter Bookings reflects the material sales trends for its business because it includes sales of subscriptions to new customers, as well as subscription renewals and upsells of additional subscriptions to existing customers.

Qualys also monitors non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating income, non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net income (loss) per diluted share and adjusted EBITDA to evaluate its ongoing operational performance and enhance an overall understanding of its past financial performance. Qualys believes that these non-GAAP metrics help illustrate underlying trends in its business that could otherwise be masked by the effect of the income or expenses, as well as the related tax effects, that are excluded in non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating income, non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net income (loss) per diluted share and adjusted EBITDA. Furthermore, Qualys uses these

measures to establish budgets and operational goals for managing its business and evaluating its performance. Qualys also believes that non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating income, non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net income (loss) per diluted share and adjusted EBITDA provide additional tools for investors to use in comparing its recurring core business operating results over multiple periods with other companies in its industry.

The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for results prepared in accordance with GAAP. A reconciliation of the non-GAAP financial measures discussed in this press release to the most directly comparable GAAP financial measures is included with the financial statements contained in this press release. Management uses both GAAP and non-GAAP information in evaluating and operating its business internally and as such has determined that it is important to provide this information to investors.
