Full-Year 2014 Guidance Raised for Revenues, GAAP EPS, Non-GAAP EPS

REDWOOD CITY, CA – August 4, 2014 – Qualys, Inc. (NASDAQ: QLYS), a pioneer and leading provider of cloud security and compliance solutions, today announced financial results for the second quarter ended June 30, 2014. Philippe Courtot, Chairman, President and Chief Executive Officer of Qualys, said, "Our second quarter 2014 results represent the strongest quarterly performance Qualys has ever delivered, driven by high demand for our cloud security and compliance solutions which resulted in record revenue growth and profit. We particularly benefited from increased upsell opportunities from our existing customers as they looked either to expand their vulnerability management scope or to acquire new services to address their global security needs in an effort to prevent increasingly sophisticated and complex cyber-attacks from compromising their critical assets. We continue to accelerate our investments in core technologies and new cloud offerings to help us grow our revenues and increase value to our customers, partners and shareholders. Non-GAAP Financial Measures

A reconciliation of the non-GAAP financial measures discussed in this press release to the most directly comparable GAAP financial measures is included with the financial statements contained in this press release. Management uses both GAAP and non-GAAP information in evaluating and operating its business internally and as such has determined that it is important to provide this information to investors.
