

VMDR TruRisk

Vulnerability Management for Small and Mid-Sized Businesses

The attack surface is expanding, cybercriminals are ever more innovative — and they're going right after businesses like yours. Small and mid-sized businesses are prime targets because many have less mature cybersecurity programs and fewer resources to effectively repel ransomware, denial of service (DoS), distributed denial of service (DDoS), man-in-the-middle (MITM) attacks, and more.

In fact, 43% of all cyberattacks target small businesses, with 68% reporting a cyberattack in the last 12 months (Verizon). For a small or mid-sized business, economic recovery from a major breach can be catastrophic after tallying the costs of stolen customer data, erosion of customer trust, lost business, and compliance violations. The average cost of a non-compliance event alone exceeds \$14 million in the U.S. Without a doubt, smaller businesses must find effective ways of consolidating the costs of acquiring and running vulnerability management (VM) and compliance programs, without sacrificing security.

Enterprise-Grade Security Packaged for a Smaller Business

With Qualys VMDR TruRisk, Qualys is helping small and mid-sized companies keep the core business safe from elevated cyber risks, without breaking the bank or diverting human capital from serving customers. Qualys VMDR TruRisk lets organizations scale a small security team to support a comprehensive enterprise-grade VM program — including integrated patch management and endpoint detection and response (EDR) in one dashboard.

Qualys VMDR TruRisk Capabilities and Benefits

(Powered by VMDR and CyberSecurity Attack Surface Management with External Attack Surface Management)

LOW TCO WITH FLEXIBLE PRICING

Easy to deploy with no hardware to buy or manage. Updates are automatically done in the cloud.

AUTOMATED VULNERABILITY ASSESSMENT AND REMEDIATION

Auto-detect vulnerabilities in real time. FixIT add on provides remediation and patch vulnerabilities up to 40% faster than other solutions.

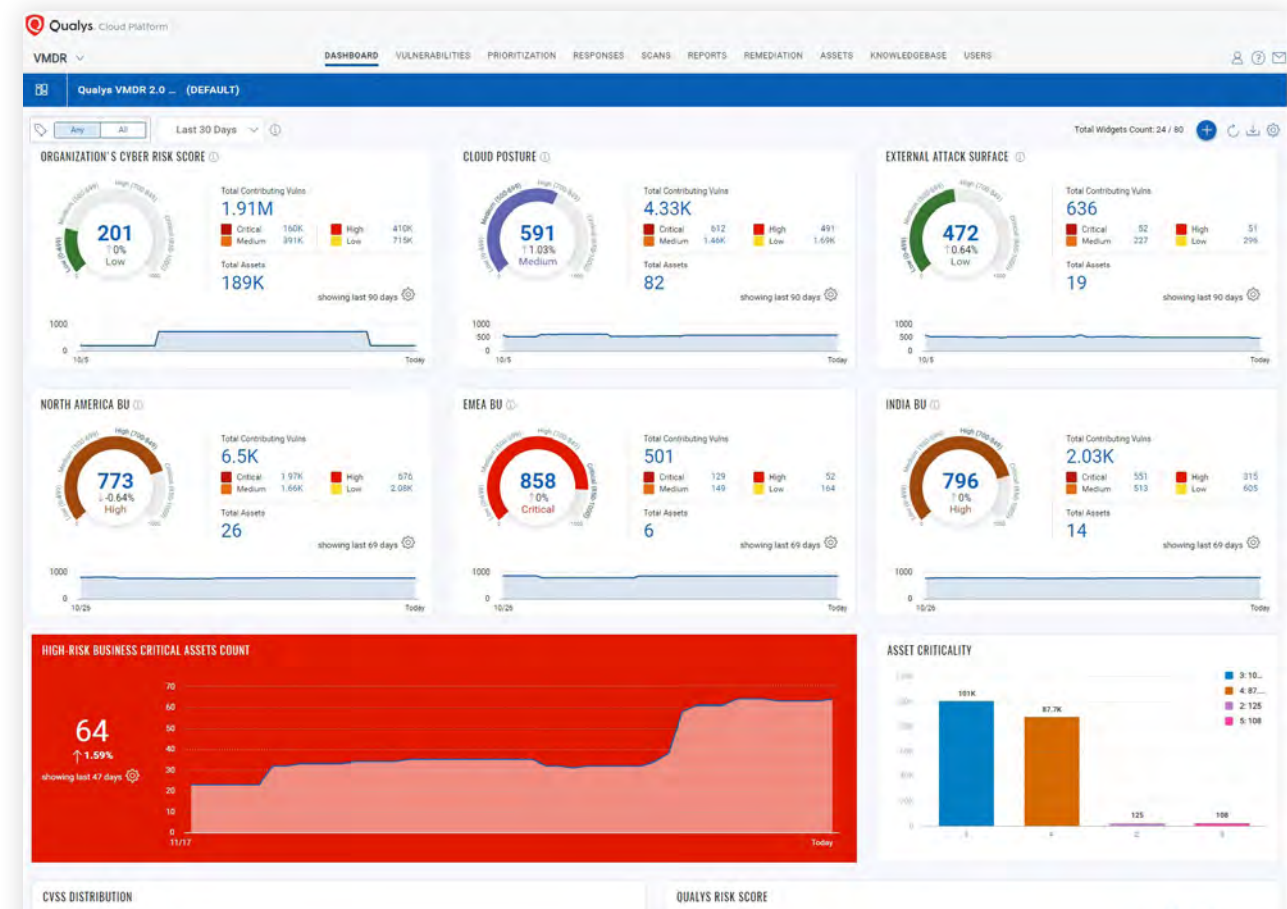

RANSOMWARE PROTECTION

Automatically block malware and ransomware infections with optional ProtectIT.

COMPLIANCE AND ENFORCEMENT

Achieve compliance and stay compliant. VMDR TruRisk offers templated reports and compliance controls for all major compliance and regulatory directives, including PCI, HIPAA, CIS, and more.

Qualys VMDR TruRisk Controls VM & Compliance with One Dashboard

VMDR TruRisk Packages for Small to Mid-Sized Companies:

VMDR TruRisk is available in three packages, allowing small to mid-sized customers to optionally add remediation (Patch Management) capabilities with VMDR TruRisk FixIT and endpoint detection and response (Multi-Vector EDR) capabilities with VMDR TruRisk ProtectIT.

Which VMDR TruRisk package is best for you?

VMDR TruRisk (Vulnerability Management for a Small to Mid-Sized Business)				
CAPABILITY	DESCRIPTION	VMDR TruRisk	VMDR TruRisk FixIT	VMDR TruRisk ProtectIT
Vulnerability Assessment	Comprehensive vulnerability assessment with support for over 70k+ CVEs	✓	✓	✓
Reporting	Standard and custom vulnerability reporting	✓	✓	✓
API Support	Launch Scans, download reports, all through a single unified API	✓	✓	✓
Asset Inventory	Inventory all known & unknown assets across on-prem and cloud	✓	✓	✓
Asset Classification	Automatically classify assets based on OS, manufacturer, application and more. Dynamically tag and organize assets	✓	✓	✓
Threat Intelligence	Identify high-risk vulnerabilities based on best-in-class vulnerability intelligence, and pinpoint impacted assets	✓	✓	✓
TruRisk Prioritization	Prioritize vulnerabilities exploited in the wild by ransomware with TruRisk Prioritization	✓	✓	✓
Scan External Assets	Scan external/Internet-facing assets with a single consolidated solution	✓	✓	✓
PCI ASV Assessment	Scan assets PCI compliance	✓	✓	✓
Configuration Assessment (CIS)/System Hardening	Scan assets for misconfiguration and system hardening based on CIS guidance	✓	✓	✓
SSL Certificate Management	Monitor SSL certificates for expiry. Prevent business outage. Inventory certificates and renew expired certificates	✓	✓	✓
Patch Detection and CVE Correlation	Accurately identify patches to remediate vulnerabilities	✓	✓	✓
Unified Dashboard	Create customizable executive dashboards	✓	✓	✓
VMDR TruRisk FixIT (add Patch Automation)				
Patch Operating Systems	Patch Windows, Linux and Mac Operating systems		✓	✓
Automated Remediation	Automate Patch Deployment. Deploy patches based on pre-defined criteria such as TruRisk Score or Real Time Thread Indicators		✓	✓
Custom Remediation	Defined pre and post-deployment scripts before/after deploying patches		✓	✓
Patch Third-Party Applications	Patch 100+ third-party applications		✓	✓
Cloud Based Patching	100% cloud patching from vendor's websites, CDNs: NO VPN required		✓	✓
VMDR TruRisk Protect IT (add Endpoint Protection)				
Anti-Virus & Ransomware Protection	Block zero-days, ransomware, script-based, and phishing attacks using multi-layered behavior and ML-based malware detection techniques			✓
Incident Response	Incident visualization, root cause analysis and response and remediation workflows			✓
Native VMDR Integration	Identify critical unprotected assets, correlate detected threats to vulnerabilities, patches, and misconfiguration to prevent future attacks			✓
Threat Hunting	Hunt for zero-day threats and search for Indicators of Compromise (IOCs) to identify attack-related behavior			✓

Put VMDR TruRisk to the test. Try it for 14 days. qualys.com/try/vmdr-trurisk

About Qualys

Qualys, Inc. (NASDAQ: QLYS) is a pioneer and leading provider of disruptive cloud-based Security, Compliance, and IT solutions with more than 10,000 subscription customers worldwide, including a majority of the Forbes Global 100 and Fortune 100. Qualys helps organizations streamline and automate their security and compliance solutions onto a single platform for greater agility, better business outcomes, and substantial cost savings. Qualys, Qualys VMDR®, and the Qualys logo are proprietary trademarks of Qualys, Inc. All other products or names may be trademarks of their respective companies.
