

# Qualys Certificate View

## Release Notes

Version 2.8.5

April 25, 2022

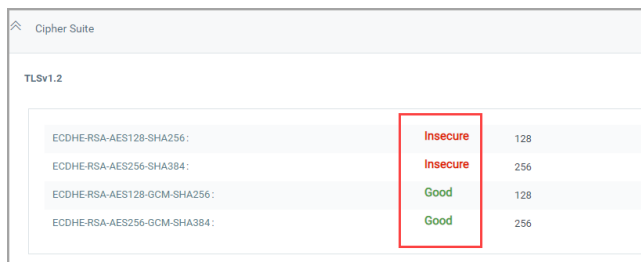

Qualys Certificate View 2.8.5 brings you many improvements and updates!

### Label and Color Coding for Cipher Suites

With this release, you can now view the label and color code for the different Cipher Suites. The color code and label details are listed in the table below.

Color	Label
Green	Good
Orange	Weak
Red	Insecure
Default (Black)	Neutral

In **Grade Summary** of certificates, now you can view labels in different colors for Cipher Suite.

Cipher Suite		
TLSv1.2		
ECDHE-RSA-AES128-SHA256:	Insecure	128
ECDHE-RSA-AES256-SHA384:	Insecure	256
ECDHE-RSA-AES128-GCM-SHA256:	Good	128
ECDHE-RSA-AES256-GCM-SHA384:	Good	256

### Issues addressed in this release

- We improved the Admin utility to remove any trailing asset details of assets deleted from the AssetView module. After executing this utility, an updated and accurate asset list is displayed in the Assets tab.
- We fixed an issue where the user got empty reports when specific ports were excluded from a query using the Not operator.
- We fixed an issue where the widget was not displaying correct data upon clicking the details of pie-chart
- We fixed an issue with the asset datalist report where the user could not download the report for assets with zero instances.
