

Qualys Container Security

Release Notes for CRS Instrumentation

Version 2.4.0

October 1, 2021

Here's what's new in Container Runtime Security (CRS) Instrumentation 2.4.0!

[Additional Images Supported for CRS Instrumentation](#)

Additional Images Supported for CRS Instrumentation

Instrumentation is supported for container images with certain libc/glibc versions. With this release, we've added support for the following versions:

Alpine

OS version: 3.13.5
libc/glibc version: musl-1.2.2-r0
Docker name & tag: alpine:3.13.5

Ubuntu

OS version: bionic-20201119
libc/glibc version: 2.27-3ubuntu1.3
Docker name & tag: ubuntu:bionic-20201119

OS version: bionic-20200807
libc/glibc version: 2.27-3ubuntu1.2
Docker name & tag: ubuntu:bionic-20200807

Debian

OS version: 10
libc/glibc version: 2.28-10
Docker name & tag: debian:10

Google Distroless Images

OS version: gcr.io/distroless/java:11
libc/glibc version: N/A
Docker name & tag: gcr.io/distroless/java:11
