

Qualys Container Security v1.x

Release Notes

Version 1.5

January 4, 2019

Here's what's new in Container Security 1.5!

[View paused containers](#)

[Launch OS advisories from vulnerability details](#)

[Minimum support version of Bamboo](#)

[View jobs for a registry scan status](#)

[Fixed issues](#)

View paused containers

The Container Security UI now shows paused containers. You can filter the containers list by “PAUSED” state or view paused containers in widgets and various other places on the Container Security UI.

Examples

Filter container list by “PAUSED” state.

| CONTAINER | CREATED ON | HOST | STATE | LAST SCAN |
|------------------|--------------|--------------------------|------------------------|-------------|
| competent_fermat | Dec 19, 2018 | docker2 10.115.74.187 | STOPPED 12 days ago | — |
| elegant_jones | Nov 21, 2018 | docker2 10.115.74.187 | PAUSED 12 days ago | 12 days ago |
| frosty_pare | Nov 21, 2018 | docker2 10.115.74.187 | STOPPED 12 days ago | — |
| peaceful_hopper | Nov 21, 2018 | docker2 10.115.74.187 | STOPPED 12 days ago | — |
| dazzling_noyce | Nov 21, 2018 | docker2 10.115.74.187 | RUNNING 12 days ago | a day ago |
| elegant_edison | Nov 21, 2018 | docker2 10.115.74.187 | STOPPED 12 days ago | — |

91 Total Containers

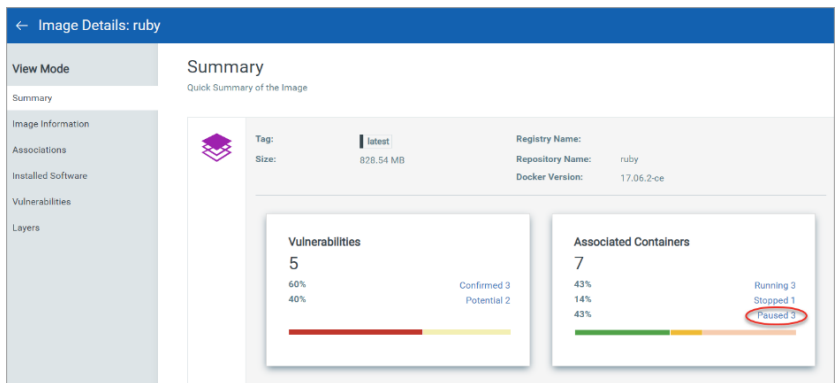

VULNERABILITIES

- Severity 5: 3
- Severity 4: 10
- Severity 3: 12
- Severity 2: 46
- Severity 1: 2

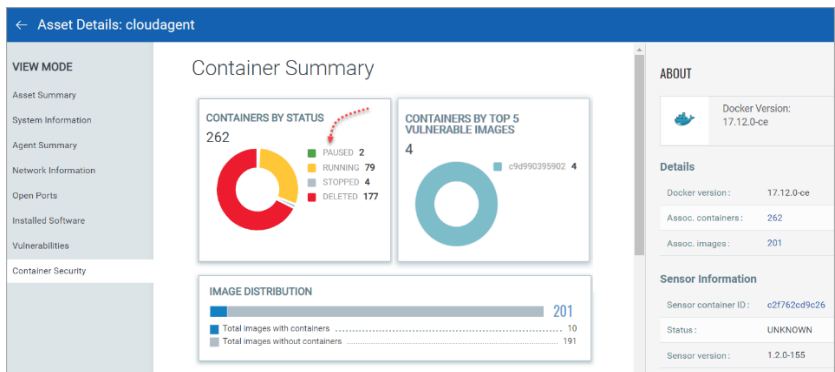

STATE

- CREATED: 42
- STOPPED: 39
- RUNNING: 6
- PAUSED: 2

Launch OS advisories from vulnerability details

Solution for a vulnerability now includes links to OS advisories. Clicking the link will take you to the OS advisory page.

Vulnerability Details: CentOS Security Update for openssl (CESA-2018-0999)

Vulnerability Summary

Severity: 4
256395
Last Found: December 4, 2018 05:11 pm

| Identification | CVSS Summary | Vulnerability Analysis |
|---------------------------------------|--------------------------------------------|------------------------|
| QID: 256395 | CVSSv2 Base: 4.3 | Exploitability: 0 |
| Category: CentOS | CVSSv2 Temporal: 3.2 | Patches: 1 |
| Published Date: May 16, 2018 03:51 pm | CVSSv3 Base: 6.5 | Malwares: 0 |
| Modified Date: - | CVSSv3 Temporal: 5.7 | |
| Discovery Method: AUTHENTICATED | Access Vector: Network | |
| Authentication: UNIX_AUTH | Vendor Reference: CESA-2018.0999 centos 97 | |
| Supported Apps: VM, CA-Linux Agent | | |

Threats

This vulnerability could be exploited to gain partial access to sensitive information.

Solution

To resolve this issue, upgrade to the latest packages which contain a patch. Refer to CentOS advisory centos 7 for updates and patch information.

Minimum support version of Bamboo

The Integrations tab now shows the version of Bamboo that container security supports for image scanning.

To view the minimum supported version of Bamboo, go to Configurations > Integrations

ASSETS **EVENTS** **CONFIGURATIONS**

Bamboo Help

Qualys Bamboo Container Security Plugin validates images for vulnerabilities and security issues. Download and deploy the plug-in on the Bamboo. Configure the test criteria for build pass or failure, and then review the Qualys report to identify issues and remediation available on validation.

Bamboo
Version 1.4.2.0
Oct 15, 2018
Minimum version of Bamboo tool supported - 5.14.0.1

View jobs for a registry scan status

Clicking on a particular status in the Registries tab now takes you to the Scan Jobs page of the registry, showing jobs filtered as per that status.

The image shows two screenshots from the AWS Management Console. The top screenshot shows the 'Registries' tab with a table of registries. The 'Finished' status of the second registry is circled in red. A red dashed arrow points from this status to the bottom screenshot. The bottom screenshot shows the 'View Details' page for the registry, with a filter 'status:Finished' applied to the 'Scan Jobs' table. The 'Finished' status in the filter and the table is also circled in red.

| STATUS | REGISTRY |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Finished | https://205767712438.dkr.ecr.us-east-1.amaz... Last Scanned on: Dec 28, 2018 |
| Finished | https://205767712438.dkr.ecr.ap-south-1.ama... Last Scanned on: Dec 27, 2018 |

| STATUS | CREATED DATE | COMPLETED DATE | REPOSITORY |
|----------|--------------|----------------|------------------------------------------|
| Finished | Dec 28, 2018 | Dec 28, 2018 | repository1 More Info |

Fixed issues

The following issue is fixed in release 1.5:

- Fixed an issue where the “Created On” date for containers and images was shown as “Jan 01, 1970” instead of the actual date.
