

# Qualys Out-of-Band Configuration Assessment

## Release Notes

Version 1.5.1

March, 5 2021

Here's what's new in Out-of-Band Configuration Assessment (OCA) 1.5.1!

[Support for New Technologies](#)

## Support for New Technologies

We now support the following new technologies through the OCA app for compliance assessment:

- Arista EOS 4.x
- Cisco IOS XR 6.x and 7.x
- Data Domain OS 6.x

You can now run the Policy Compliance Reports on these technologies to view your compliance posture.

**Note:** Arista EOS and Cisco IOS XR can be assessed for compliance via authenticated scanning as well as OCA.
