

# Qualys Secure Enterprise Mobility v1.x

## Release Notes

Version 1.0.1

March 1, 2021

Here's what's new in Qualys Secure Enterprise Mobility 1.0.1!

[User Bulk Upload](#)

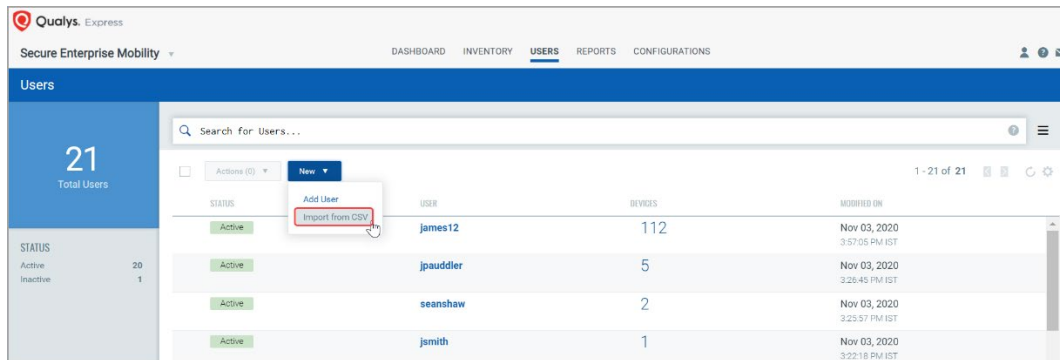

[Vulnerability Data CSV Download](#)

## User Bulk Upload

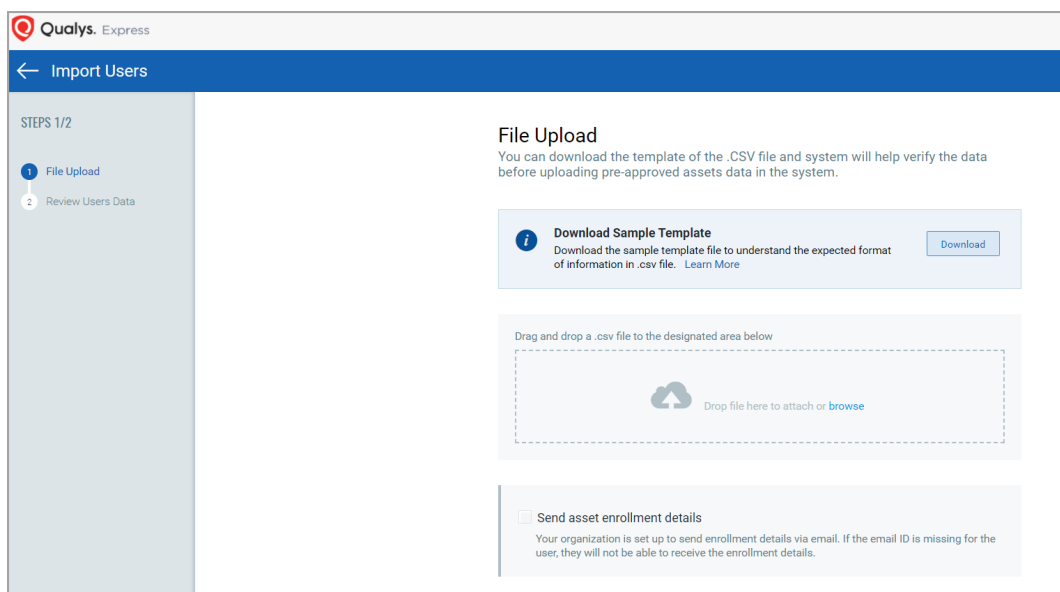

With this release, Admin can upload list of users in SEM. For this, we have added Import from CSV option while adding user.

### What are the steps?

1) Navigate to **Users** and click **New > Import from CSV**.

2) If you don't have sample template csv file, you can download it by clicking **Download Template** link from Import Users page.

To upload users in SEM, make sure:

- The file you are uploading must be in CSV format (tab or comma delimited)
- The file must contain 1 row of information for each user that needs to be registered/enrolled
- The first row contains the column titles/attributes
- If mandatory fields are left blank or file contains duplicate data; you will be informed of the line numbers and data that needs to be fixed. Until all errors are cleared, data will not be saved
- Make sure that you have the latest CSV file format.

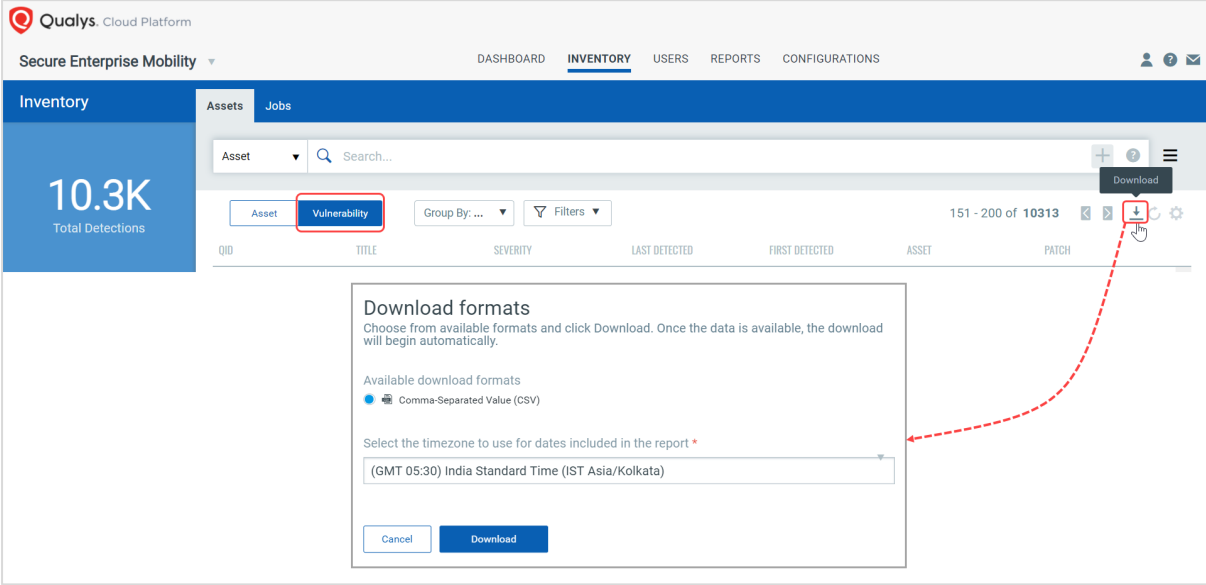

3) Click **Next** once you upload a valid csv file. Review the user list and click **Import Users** to upload users.

## Vulnerability Data CSV Download

With this release, we've added a new feature to download vulnerability data in the CSV format. You can download maximum 10000 records at a time.

### What are the steps?

- 1) Navigate to **Inventory > Assets > Vulnerability** and then click  (**Download**) icon.
- 2) Select the time zone to use for dates to be included in the report.

The screenshot shows the Qualys Cloud Platform interface for 'Secure Enterprise Mobility'. The navigation path is 'Inventory > Assets > Vulnerability'. A 'Download' icon is highlighted in the top right corner of the table. A modal window titled 'Download formats' is open, showing the following options:

- Available download formats:
  - Comma-Separated Value (CSV)
- Select the timezone to use for dates included in the report:
  - (GMT 05:30) India Standard Time (IST Asia/Kolkata)
- Buttons: Cancel, Download

- 3) Click **Download** to download report in CSV format.
